SUBJECTS

Acoustic impedance
Effect on auditory threshold of air and water pockets bordering pathway between soft tissue stimulation sites and cochlea, 524

Adenoid
Topographic distribution of biofilm-producing bacteria in adenoid subsites of children with chronic or recurrent middle ear infections, 109

Adjunctive procedure
Adjunctive procedures after pediatric single-stage laryngotracheoplasty, 330

Aerodigestive tract
Management of upper aerodigestive tract amyloidosis, 535

Aerodynamic parameters
Measurement of phonation threshold power in normal and disordered voice production, 555

Age
Is there age limit for cochlear implantation? 222

Voice-related symptoms and their effects on quality of life, 404
Voice symptoms and voice-related quality of life in college students, 511

Airway
Laryngeal obstruction by cervical and endolaryngeal lymphatic malformations in children: proposed staging system and review of treatment, 575
Optimal level of continuous positive airway pressure: autoadjusting titration versus titration with predictive equation, 339
Surgical management of airway dysfunction in Parkinson's disease compared with Parkinson-plus syndromes, 294

Allergy
Protective effects of exogenous surfactant protein A in allergic rhinitis: mouse model, 240

Amitriptyline
Amitriptyline for symptomatic treatment of idiopathic chronic laryngeal irritability, 20

Amniotic membrane
Use of diced cartilage grafts wrapped with amniotic membrane in soft tissue augmentation: experimental study, 66

Amyloidosis
Management of upper aerodigestive tract amyloidosis, 535

Anastomosis
Recurrent laryngeal nerve transection and anastomosis: rat laryngeal motoneuron survival and effect of anastomosis site, 283

Anesthesia
Mastoid surgery under local anesthesia for medically unfit patients: techniques and outcome, 613
Otologic iontophoresis: no-papoose technique, 487

Angiofibroma
Use of Coblation in resection of juvenile nasopharyngeal angiofibroma, 353

Angiolytic laser treatment
Salvage endoscopic angiolytic KTP laser treatment of early glottic cancer after failed radiotherapy, 235
Voice outcomes for photoangiolytic KTP laser treatment of early glottic cancer, 151

Anthocyanin
Curcumin and anthocyanin inhibit pepsin-mediated cell damage and carcinogenic changes in airway epithelial cells, 632

Antisecretory factor
Antisecretory factor–inducing therapy improves patient-reported functional levels in Meniere's disease, 619

Apnea
Sleep architecture parameters that predict postoperative resolution of nocturnal enuresis in children with obstructive sleep apnea, 690

Aspiration
Stability of aspiration status in healthy adults, 289
Subglottic laryngeal closure: unique modified method of laryngotracheal separation to prevent aspiration, 427

Atrophy
Mitochondrial myopathy: rare cause of early-onset vocal fold atrophy, 177

Auditory brain stem implantation
Auditory brainstem implantation after unsuccessful cochlear implantation of children with clinical diagnosis of cochlear nerve deficiency, 605

Auditory brain stem response
Impairment of habituation of auditory brain stem response to migrainous vertigo, 308

Aural mass
External auditory canal mass as first manifestation of bronchogenic carcinoma: report of rare case, 378

Autoantibody
Expression of autoantibodies in patients with sudden sensorineural hearing loss, 131

Bacteria
Topographic distribution of biofilm-producing bacteria in adenoid subsites of children with chronic or recurrent middle ear infections, 109

Balloon dilation
Balloon dilation complication during treatment of subglottic stenosis: background of FDA class 1 recall for 18 × 40-mm Acclarent Inspira AIR balloon dilation system, 364
In-office stand-alone balloon dilation of maxillary sinus ostia and ethmoid infundibula in adults with chronic or recurrent acute rhinosinusitis: prospective, multi-institutional study with 1-year follow-up, 665

Bamboo nodule
Glottic bamboo nodules from systemic lupus erythematosus, 496

Bethanechol
Topical bethanechol for improvement of esophageal dysmotility: pilot study, 481

Bioluminescent imaging
Bioluminescent imaging of pneumococcal otitis media in chinchillas, 344

Bleeding
Standardization of reporting post-tonsillectomy bleeding, 277

Bone-anchored hearing device
Bone-anchored hearing devices in children with unilateral conductive hearing loss: patient-carer perspective, 582

Bone marrow
Bone marrow–derived clonal mesenchymal stem cells as source of cell therapy for promoting vocal fold wound healing, 121

Bone mineral density
Does bone mineral density have effect on hearing loss in postmenopausal patients? 648

Book Reviews

Schlosser RJ, Harvey RJ. *Endoscopic Sinus Surgery: Optimizing Outcomes and Avoiding Failures*, 216
Shah RK, ed. *Otolaryngology for the Pediatrician*, 664
Shin JJ, Cunningham MJ. *Otolaryngology Prep and Practice*, 480

Botulinum toxin
Botulinum toxin injection for treatment of upper esophageal sphincter dysfunction, 100

Bronchoscopy
Rigid bronchoscopic management of complications related to endobronchial stents after lung transplantation, 183

Caffeic acid phenethyl ester
Caffeic acid phenethyl ester inhibits diesel exhaust particle–induced inflammation of human middle ear epithelial cells via NOX4 inhibition, 595

Caloric testing
Hot or cold? Is monothermal caloric testing useful and cost-effective? 412

Cardiovascular system
Cardiovascular and blood glucose parameters in infants during propranolol initiation for treatment of symptomatic infantile hemangiomas, 550

Cartilage
Use of diced cartilage grafts wrapped with amniotic membrane in soft tissue augmentation: experimental study, 66

Cavernous sinus
Transnasal approach to orbital apex and cavernous sinus, 254

Cell therapy
Bone marrow–derived clonal mesenchymal stem cells as source of cell therapy for promoting vocal fold wound healing, 121

Cepstrum
Spectral-cepstral estimation of dysphonia severity: external validation, 40

Cereal
Antisecretory factor–inducing therapy improves patient-reported functional levels in Meniere's disease, 619

Cervical osteomyelitis
Cervical osteomyelitis after carbon dioxide laser excision of recurrent carcinoma of posterior pharyngeal wall, 273

Chemoradiotherapy
Acoustic analysis of changes in articulation proficiency in patients with advanced head and neck cancer treated with chemoradiotherapy, 754

Cholesteatoma
Congenital middle ear cholesteatoma: experience from 26 surgical cases, 316
Predictors of hearing preservation in management of labyrinthine fistulas positioned on semicircular canals, 529

Chondrosarcoma
Skull base chondrosarcomas: surgical treatment and results, 763

Chronic laryngitis
Incidence of chronic laryngitis, 771

Coblation
Use of Coblation in resection of juvenile nasopharyngeal angiofibroma, 353

Cochlea
Effect on auditory threshold of air and water pockets bordering pathway between soft tissue stimulation sites and cochlea, 524
Etanercept prevents decrease of cochlear blood flow dose-dependently caused by tumor necrosis factor alpha, 468

Cochlear implant
Auditory brainstem implantation after unsuccessful cochlear implantation of children with clinical diagnosis of cochlear nerve deficiency, 605
Is there age limit for cochlear implantation? 222
Molecular and cellular mechanisms of loss of residual hearing after cochlear implantation, 33
Vestibular schwannoma in only hearing ear: role of cochlear implants, 91

Collagen
Visualizing collagen network within human and rhesus monkey vocal folds using polarized light microscopy, 135

Complication
Balloon dilation complication during treatment of subglottic stenosis: background of FDA class 1 recall for 18 × 40-mm Acclarent Inspira AIR balloon dilation system, 364
Descending mediastinitis with mediastinal abscess after supracricoid partial laryngectomy, 369
Rigid bronchoscopic management of complications related to endobronchial stents after lung transplantation, 183

Congenital middle ear cholesteatoma
Congenital middle ear cholesteatoma: experience from 26 surgical cases, 316

Consortium statement
The value of resident presentations at scientific meetings, 1

Continuous positive airway pressure
Optimal level of continuous positive airway pressure: autoadjusting titration versus titration with predictive equation, 339

Controlled hypotension
Comparison between dexmedetomidine and remifentanil for controlled hypotension and recovery in endoscopic sinus surgery, 421

Cordectomy
Voice outcomes from subligamentous cordectomy for early glottic cancer, 190

Corticosteroid
Expression of autoantibodies in patients with sudden sensorineural hearing loss, 131

Cost-effectiveness
Hot or cold? Is monothermal caloric testing useful and cost-effective? 412

Cricopharyngeal myotomy
Comparison of carbon dioxide laser–assisted versus stapler-assisted endoscopic cricopharyngeal myotomy, 568

Cricotracheal resection
Subjective and objective parameters of adult female voice after cricotracheal resection and dilation, 707

Curcumin
Curcumin and anthocyanin inhibit pepsin-mediated cell dam-

age and carcinogenic changes in airway epithelial cells, 632

Debridement
Postoperative nasal debridement after endoscopic sinus surgery: randomized controlled trial, 642

Deglutition
Causes of dysphagia in tertiary-care swallowing center, 335
Dynamic magnetic resonance imaging of pharynx during deglutition, 145
Temporal measurements of deglutition in dynamic magnetic resonance imaging versus videofluoroscopy, 748

Dehiscence
Repair of posterior semicircular canal dehiscence from high jugular bulb, 269

Dexmedetomidine
Comparison between dexmedetomidine and remifentanil for controlled hypotension and recovery in endoscopic sinus surgery, 421
Dexmedetomidine versus morphine or fentanyl in management of children after tonsillectomy and adenoidectomy: meta-analysis of randomized controlled trials, 114

Dexpanthenol
Efficacy of dexpanthenol for pediatric post-tonsillectomy pain and wound healing, 464

Diesel exhaust
Caffeic acid phenethyl ester inhibits diesel exhaust particle–induced inflammation of human middle ear epithelial cells via NOX4 inhibition, 595

Dilation
In-office stand-alone balloon dilation of maxillary sinus ostia and ethmoid infundibula in adults with chronic or recurrent acute rhinosinusitis: prospective, multi-institutional study with 1-year follow-up, 665
Subjective and objective parameters of adult female voice after cricotracheal resection and dilation, 707

Diverticulum
Management of postradiation esophageal web in setting of coexisting Zenker's diverticulum, 775
Open staple diverticulectomy for large recurrent Zenker's diverticulum: still valid procedure, 729
Revision Zenker diverticulum: laser versus stapler outcomes following initial endoscopic failure, 247

Duct
Rhabdomyosarcoma of Stensen's duct in children, 382

Dysphagia
Causes of dysphagia in tertiary-care swallowing center, 335
Reliability and validity of Italian Eating Assessment Tool, 717
Topical bethanechol for improvement of esophageal dysmotility: pilot study, 481

Dysphonia
Spectral-cepstral estimation of dysphonia severity: external validation, 40

Eating Assessment Tool
Reliability and validity of Italian Eating Assessment Tool, 717

Effort
Acoustic correlate of vocal effort in spasmodic dysphonia, 169

Endoscopy
Endoscopic keel placement to treat and prevent anterior glottic webs, 672
Outcomes and complications of endoscopic approaches for malignancies of paranasal sinuses and anterior skull base, 54
Postoperative nasal debridement after endoscopic sinus surgery: randomized controlled trial, 642

Enuresis
Sleep architecture parameters that predict postoperative resolution of nocturnal enuresis in children with obstructive sleep apnea, 690

Epidemiology
Association between tinnitus and sleep disorders in general Japanese population, 701

Epidermal growth factor
Salivary concentration of epidermal growth factor in adults with reflux laryngitis before and after treatment, 440

Epithelium
In vitro epithelial differentiation of human induced pluripotent stem cells for vocal fold tissue engineering, 737
Potential for respiratory epithelium regeneration from induced pluripotent stem cells, 25

Esophagus
Botulinum toxin injection for treatment of upper esophageal sphincter dysfunction, 100
The upper esophageal sphincter is not round: pilot study evaluating novel, physiology-based approach to upper esophageal sphincter dilation, 217
Topical bethanechol for improvement of esophageal dysmotility: pilot study, 481

Etanercept
Etanercept prevents decrease of cochlear blood flow dose-dependently caused by tumor necrosis factor alpha, 468

External auditory canal
External auditory canal mass as first manifestation of bronchogenic carcinoma: report of rare case, 378

Facial nerve
Long-term outcomes of facial nerve function in irradiated and nonirradiated nerve grafts, 695

False vocal fold
Muscular anatomy of human ventricular folds, 561

FEES
Stability of aspiration status in healthy adults, 289

Fentanyl
Dexmedetomidine versus morphine or fentanyl in management of children after tonsillectomy and adenoidectomy: meta-analysis of randomized controlled trials, 114

Fiber orientation
Visualizing collagen network within human and rhesus monkey vocal folds using polarized light microscopy, 135

Gabapentin
Globus pharyngeus: effectiveness of treatment with proton pump inhibitors and gabapentin, 492

Gastroesophageal reflux
Salivary concentration of epidermal growth factor in adults with reflux laryngitis before and after treatment, 440
Subacute rhinitis in infants: gastroesophageal reflux must be considered, 588

Globus pharyngeus
Globus pharyngeus: effectiveness of treatment with proton pump inhibitors and gabapentin, 492

Goiter
Radiologically predicting when sternotomy may be required in management of retrosternal goiters, 15

Graft
End-to-side interposed donor grafting as facial nerve reinforcement technique after vestibular schwannoma surgery, 520
Two new polymers as candidates for rhinoplasty allografts: experimental study in rabbit model, 474
Use of diced cartilage grafts wrapped with amniotic membrane in soft tissue augmentation: experimental study, 66

Gusher
Preoperative computed tomography scan may fail to predict perilymphatic gusher, 374

Hearing
Does bone mineral density have effect on hearing loss in postmenopausal patients? 648
Molecular and cellular mechanisms of loss of residual hearing after cochlear implantation, 33

Heat and moisture exchanger
Long-term use of heat and moisture exchangers among laryngectomees: medical, social, and psychological patterns, 358

Hemangioma
Cardiovascular and blood glucose parameters in infants during propranolol initiation for treatment of symptomatic infantile hemangiomas, 550

Hemithyroidectomy
Thyroid hormone replacement therapy, surveillance ultrasonography, and fine-needle aspiration after hemithyroidectomy, 450

Hemorrhage
Standardization of reporting post-tonsillectomy bleeding, 277

Hepatic failure
Thyroid storm complicated by fulminant hepatic failure: case report and literature review, 679

Hormone
Thyroid hormone replacement therapy, surveillance ultrasonography, and fine-needle aspiration after hemithyroidectomy, 450

House, William F., DDS, MD, 71

Human immunodeficiency virus
Oropharyngeal syphilis among patients infected with human immunodeficiency virus, 435

Hyaluronic acid
Prospective evaluation of office-based injection laryngoplasty with hyaluronic acid gel, 541

Hyoid bone
Hyoid bone syndrome: retrospective review of 84 patients treated with triamcinolone acetonide injections, 159

Hypoparathyroidism
Factors influencing morbidity after surgical management of malignant thyroid disease, 398

Imaging
Dynamic magnetic resonance imaging of pharynx during deglutition, 145
Magnetic resonance imaging findings in pediatric bilateral vocal fold dysfunction, 417
Multislice computed tomography overestimates superior semicircular canal dehiscence syndrome, 625
Radiologically predicting when sternotomy may be required in management of retrosternal goiters, 15
Temporal measurements of deglutition in dynamic magnetic resonance imaging versus videofluoroscopy, 748

Implant
Auditory brainstem implantation after unsuccessful cochlear implantation of children with clinical diagnosis of cochlear nerve deficiency, 605
Is there age limit for cochlear implantation? 222

Incidence
Incidence of chronic laryngitis, 771

Incus
Malleus and incus: correlates of size, 60

Inflammation
Caffeic acid phenethyl ester inhibits diesel exhaust particle–induced inflammation of human middle ear epithelial cells via NOX4 inhibition, 595
Pro-resolution mediator lipoxin A4 and its receptor in upper airway inflammation, 683

Injection
Prospective evaluation of office-based injection laryngoplasty with hyaluronic acid gel, 541
Single-operator flexible nasolaryngoscopy–guided transthyrohyoid vocal fold injections, 9

Intubation
Combined optical coherence tomography and endobronchial ultrasonography for laser-assisted treatment of postintubation laryngotracheal stenosis, 299

Iontophoresis
Otologic iontophoresis: no-papoose technique, 487

Irritability
Amitriptyline for symptomatic treatment of idiopathic chronic laryngeal irritability, 20

Italian Eating Assessment Tool
Reliability and validity of Italian Eating Assessment Tool, 717

Jugular bulb
Repair of posterior semicircular canal dehiscence from high jugular bulb, 269

Juvenile nasopharyngeal angiofibroma
Use of Coblation in resection of juvenile nasopharyngeal angiofibroma, 353

Keel
Endoscopic keel placement to treat and prevent anterior glottic webs, 672

Labyrinthine fistula
Predictors of hearing preservation in management of labyrinthine fistulas positioned on semicircular canals, 529

Lamina propria
Visualizing collagen network within human and rhesus monkey vocal folds using polarized light microscopy, 135

Laryngeal irritability
Amitriptyline for symptomatic treatment of idiopathic chronic laryngeal irritability, 20

Laryngectomy
Descending mediastinitis with mediastinal abscess after supracricoid partial laryngectomy, 369
Long-term use of heat and moisture exchangers among laryngectomees: medical, social, and psychological patterns, 358

Salvage transoral laser supraglottic laryngectomy after radiation failure: report of seven cases, 85

Laryngitis
Incidence of chronic laryngitis, 771

Laryngoplasty
Prospective evaluation of office-based injection laryngoplasty with hyaluronic acid gel, 541

Laryngotracheal reconstruction
Novel method for laryngotracheal reconstruction: combining single- and double-stage techniques, 445
Utility of two-stage laryngotracheal reconstruction in management of subglottic stenosis in adults, 322

Laryngotracheal separation
Subglottic laryngeal closure: unique modified method of laryngotracheal separation to prevent aspiration, 427

Laryngotracheal stenosis
Combined optical coherence tomography and endobronchial ultrasonography for laser-assisted treatment of postintubation laryngotracheal stenosis, 299

Laryngotracheoplasty
Adjunctive procedures after pediatric single-stage laryngotracheoplasty, 330

Laser
Carbon dioxide laser fiber for excision of oral leukoplakia, 547
Cervical osteomyelitis after carbon dioxide laser excision of recurrent carcinoma of posterior pharyngeal wall, 273
Comparison of carbon dioxide laser–assisted versus stapler-assisted endoscopic cricopharyngeal myotomy, 568
Salvage endoscopic angiolytic KTP laser treatment of early glottic cancer after failed radiotherapy, 235
Supraglottic stenosis: etiology and treatment of rare condition, 205
Voice outcomes for photoangiolytic KTP laser treatment of early glottic cancer, 151

Leukoplakia
Carbon dioxide laser fiber for excision of oral leukoplakia, 547

Lipoxin
Pro-resolution mediator lipoxin A4 and its receptor in upper airway inflammation, 683

Liver
Thyroid storm complicated by fulminant hepatic failure: case report and literature review, 679

Local anesthesia
Mastoid surgery under local anesthesia for medically unfit patients: techniques and outcome, 613

Lung
Long-term use of heat and moisture exchangers among laryngectomees: medical, social, and psychological patterns, 358

Lymph node
Correlation between expression of extracellular matrix metalloproteinase inducer and matrix metalloproteinase–2 and cervical lymph node metastasis of nasopharyngeal carcinoma, 210
Prevalence of vocal cord paralysis in patients with incidentally discovered enlarged lymph nodes along expected course of recurrent laryngeal nerve, 229

Lymphatic malformation
Laryngeal obstruction by cervical and endolaryngeal lymphatic malformations in children: proposed staging system and review of treatment, 575

Malignancy
Malignant transformation of respiratory papillomatosis in solid-organ transplant patient: case report and literature review, 457
PEComa of nasal cavity with worrisome histologic features and benign behavior: case report, 725

Malleus
Malleus and incus: correlates of size, 60

Mastoid surgery
Mastoid surgery under local anesthesia for medically unfit patients: techniques and outcome, 613

Matrix metalloproteinase
Correlation between expression of extracellular matrix metalloproteinase inducer and matrix metalloproteinase–2 and cervical lymph node metastasis of nasopharyngeal carcinoma, 210

Mediastinitis
Descending mediastinitis with mediastinal abscess after supracricoid partial laryngectomy, 369

Memorial
House, William F., DDS, MD, 71

Meniere's disease
Antisecretory factor–inducing therapy improves patient-reported functional levels in Meniere's disease, 619

Menopause
Does bone mineral density have effect on hearing loss in postmenopausal patients? 648

Metastasis
Correlation between expression of extracellular matrix metalloproteinase inducer and matrix metalloproteinase–2 and cervical lymph node metastasis of nasopharyngeal carcinoma, 210
External auditory canal mass as first manifestation of bronchogenic carcinoma: report of rare case, 378

Middle ear
Congenital middle ear cholesteatoma: experience from 26 surgical cases, 316
Topographic distribution of biofilm-producing bacteria in adenoid subsites of children with chronic or recurrent middle ear infections, 109

Migraine
Impairment of habituation of auditory brain stem response to migrainous vertigo, 308

Minimally invasive surgery
Clinical outcomes of transoral robotic surgery for head and neck tumors, 73

Mitochondrial myopathy
Mitochondrial myopathy: rare cause of early-onset vocal fold atrophy, 177

Monothermal caloric testing
Hot or cold? Is monothermal caloric testing useful and cost-effective? 412

Morphine
Dexmedetomidine versus morphine or fentanyl in management of children after tonsillectomy and adenoidectomy: meta-analysis of randomized controlled trials, 114

Multislice computed tomography
Multislice computed tomography overestimates superior

semicircular canal dehiscence syndrome, 625

Muscle
Muscular anatomy of human ventricular folds, 561

Myopathy
Mitochondrial myopathy: rare cause of early-onset vocal fold atrophy, 177

Myospherulosis
Chronic otorrhea caused by myospherulosis in middle ear after tympanoplasty, 461

Nasolaryngoscopy
Single-operator flexible nasolaryngoscopy–guided transthyrohyoid vocal fold injections, 9

Neck
Hyoid bone syndrome: retrospective review of 84 patients treated with triamcinolone acetonide injections, 159

Nerve
Differences in laryngeal neurotrophic factor gene expression after recurrent laryngeal nerve and vagus nerve injuries, 653
Long-term outcomes of facial nerve function in irradiated and nonirradiated nerve grafts, 695
Recurrent laryngeal nerve regeneration through silicone tube produces reinnervation without vocal fold mobility in rats, 49
Recurrent laryngeal nerve transection and anastomosis: rat laryngeal motoneuron survival and effect of anastomosis site, 283

Nodule
Glottic bamboo nodules from systemic lupus erythematosus, 496

Nose
Congenital nasal pyriform aperture stenosis: conservative management, 601
Nasal obstruction and unilateral chronic otitis media: evaluation by acoustic rhinometry, 734
PEComa of nasal cavity with worrisome histologic features and benign behavior: case report, 725
Two new polymers as candidates for rhinoplasty allografts: experimental study in rabbit model, 474

Obituary
House, William F., DDS, MD, 71

Obstruction
Laryngeal obstruction by cervical and endolaryngeal lymphatic malformations in children: proposed staging system and review of treatment, 575
Nasal obstruction and unilateral chronic otitis media: evaluation by acoustic rhinometry, 734

Oral leukoplakia
Carbon dioxide laser fiber for excision of oral leukoplakia, 547

Orbital apex
Transnasal approach to orbital apex and cavernous sinus, 254

Oropharyngeal syphilis
Oropharyngeal syphilis among patients infected with human immunodeficiency virus, 435

Ossicle
Analysis of long-term hearing gains after stapes surgery with piston reconstruction for otosclerosis, 500
Malleus and incus: correlates of size, 60

Osteomyelitis
Cervical osteomyelitis after carbon dioxide laser excision of recurrent carcinoma of posterior pharyngeal wall, 273

Otitis media
Bioluminescent imaging of pneumococcal otitis media in chinchillas, 344
Nasal obstruction and unilateral chronic otitis media: evaluation by acoustic rhinometry, 734

Otorrhea
Chronic otorrhea caused by myospherulosis in middle ear after tympanoplasty, 461

Otosclerosis
Analysis of long-term hearing gains after stapes surgery with piston reconstruction for otosclerosis, 500
Preoperative computed tomography scan may fail to predict perilymphatic gusher, 374

Pain
Efficacy of dexpanthenol for pediatric post-tonsillectomy pain and wound healing, 464

Papilloma
Malignant transformation of respiratory papillomatosis in solid-organ transplant patient: case report and literature review, 457

Paralysis
Magnetic resonance imaging findings in pediatric bilateral vocal fold dysfunction, 417
Prevalence of vocal cord paralysis in patients with incidentally discovered enlarged lymph nodes along expected course of recurrent laryngeal nerve, 229
Voice outcome following acute unilateral vocal fold paralysis, 197

Parkinson's disease
Surgical management of airway dysfunction in Parkinson's disease compared with Parkinson-plus syndromes, 294

PEComa
PEComa of nasal cavity with worrisome histologic features and benign behavior: case report, 725

Pepsin
Curcumin and anthocyanin inhibit pepsin-mediated cell damage and carcinogenic changes in airway epithelial cells, 632

Perilymphatic gusher
Preoperative computed tomography scan may fail to predict perilymphatic gusher, 374

Phonation threshold power
Measurement of phonation threshold power in normal and disordered voice production, 555

Pneumonia
Tracheotomy tubes with suction above cuff reduce rate of ventilator-associated pneumonia in intensive care unit patients, 3

Pneumococcal otitis media
Bioluminescent imaging of pneumococcal otitis media in chinchillas, 344

Posturography
Role of computerized dynamic posturography in evaluating sinugenic vertigo, 263

Propranolol
Cardiovascular and blood glucose parameters in infants during propranolol initiation for treatment of symptomatic infantile hemangiomas, 550

Prosthesis
Bone-anchored hearing devices in children with unilateral conductive hearing loss: patient-carer perspective, 582
New method for in-office secondary voice prosthesis insertion under local anesthesia by reverse puncture from esophageal lumen, 163

Protein
Protective effects of exogenous surfactant protein A in allergic rhinitis: mouse model, 240

Proton pump inhibitors
Globus pharyngeus: effectiveness of treatment with proton pump inhibitors and gabapentin, 492

Pyriform aperture
Congenital nasal pyriform aperture stenosis: conservative management, 601

Quality of life
Bone-anchored hearing devices in children with unilateral conductive hearing loss: patient-carer perspective, 582
Tongue strength as predictor of functional outcomes and quality of life after tongue cancer surgery, 386
Voice-related symptoms and their effects on quality of life, 404
Voice symptoms and voice-related quality of life in college students, 511

Radiotherapy
Acoustic analysis of changes in articulation proficiency in patients with advanced head and neck cancer treated with chemoradiotherapy, 754
Long-term outcomes of facial nerve function in irradiated and nonirradiated nerve grafts, 695

Reconstruction
Analysis of long-term hearing gains after stapes surgery with piston reconstruction for otosclerosis, 500
Novel method for laryngotracheal reconstruction: combining single- and double-stage techniques, 445
Utility of two-stage laryngotracheal reconstruction in management of subglottic stenosis in adults, 322

Recurrent laryngeal nerve
Differences in laryngeal neurotrophic factor gene expression after recurrent laryngeal nerve and vagus nerve injuries, 653
Factors influencing morbidity after surgical management of malignant thyroid disease, 398
Recurrent laryngeal nerve regeneration through silicone tube produces reinnervation without vocal fold mobility in rats, 49
Recurrent laryngeal nerve transection and anastomosis: rat laryngeal motoneuron survival and effect of anastomosis site, 283

Reflux
Salivary concentration of epidermal growth factor in adults with reflux laryngitis before and after treatment, 440

Regeneration
Potential for respiratory epithelium regeneration from induced pluripotent stem cells, 25
Recurrent laryngeal nerve regeneration through silicone tube produces reinnervation without vocal fold mobility in rats, 49

Remifentanil
Comparison between dexmedetomidine and remifentanil for controlled hypotension and recovery in endoscopic sinus surgery, 421

Research
The value of resident presentations at scientific meetings, 1

Resident
The value of resident presentations at scientific meetings, 1

Residual hearing
Molecular and cellular mechanisms of loss of residual hearing after cochlear implantation, 33

Reverse puncture
New method for in-office secondary voice prosthesis insertion under local anesthesia by reverse puncture from esophageal lumen, 163

Revision
Revision Zenker diverticulum: laser versus stapler outcomes following initial endoscopic failure, 247

Rhabdomyosarcoma
Rhabdomyosarcoma of Stensen's duct in children, 382

Rhinitis
Pro-resolution mediator lipoxin A_4 and its receptor in upper airway inflammation, 683
Subacute rhinitis in infants: gastroesophageal reflux must be considered, 588

Rhinoplasty
Two new polymers as candidates for rhinoplasty allografts: experimental study in rabbit model, 474

Robotic surgery
Clinical outcomes of transoral robotic surgery for head and neck tumors, 73

Salvage
Salvage endoscopic angiolytic KTP laser treatment of early glottic cancer after failed radiotherapy, 235
Salvage transoral laser supraglottic laryngectomy after radiation failure: report of seven cases, 85

Sarcoma
Skull base chondrosarcomas: surgical treatment and results, 763

Schwannoma
End-to-side interposed donor grafting as facial nerve reinforcement technique after vestibular schwannoma surgery, 520
Vestibular schwannoma in only hearing ear: role of cochlear implants, 91

Semicircular canal
Multislice computed tomography overestimates superior semicircular canal dehiscence syndrome, 625
Predictors of hearing preservation in management of labyrinthine fistulas positioned on semicircular canals, 529
Repair of posterior semicircular canal dehiscence from high jugular bulb, 269

Single-stage laryngotracheoplasty
Adjunctive procedures after pediatric single-stage laryngotracheoplasty, 330

Sinugenic vertigo
Role of computerized dynamic posturography in evaluating sinugenic vertigo, 263

Sinus
In-office stand-alone balloon dilation of maxillary sinus ostia and ethmoid infundibula in adults with chronic or recurrent acute rhinosinusitis: prospective, multi-institutional study with 1-year follow-up, 665
Postoperative nasal debridement after endoscopic sinus surgery: randomized controlled trial, 642

Recurrent laryngeal nerve regeneration through silicone tube produces reinnervation without vocal fold mobility in rats, 49

Skull base
Recurrent laryngeal nerve regeneration through silicone tube produces reinnervation without vocal fold mobility in rats, 49
Skull base chondrosarcomas: surgical treatment and results, 763

Sleep
Association between tinnitus and sleep disorders in general Japanese population, 701
Sleep architecture parameters that predict postoperative resolution of nocturnal enuresis in children with obstructive sleep apnea, 690

Soft tissue conduction
Effect on auditory threshold of air and water pockets bordering pathway between soft tissue stimulation sites and cochlea, 524

Spasmodic dysphonia
Acoustic correlate of vocal effort in spasmodic dysphonia, 169

Spectrum
Spectral-cepstral estimation of dysphonia severity: external validation, 40

Speech
Acoustic analysis of changes in articulation proficiency in patients with advanced head and neck cancer treated with chemoradiotherapy, 754

Sphincter
The upper esophageal sphincter is not round: pilot study evaluating novel, physiology-based approach to upper esophageal sphincter dilation, 217

Staple
Comparison of carbon dioxide laser–assisted versus stapler-assisted endoscopic cricopharyngeal myotomy, 568
Open staple diverticulectomy for large recurrent Zenker's diverticulum: still valid procedure, 729

Stem cell
Bone marrow–derived clonal mesenchymal stem cells as source of cell therapy for promoting vocal fold wound healing, 121
In vitro epithelial differentiation of human induced pluripotent stem cells for vocal fold tissue engineering, 737
Potential for respiratory epithelium regeneration from induced pluripotent stem cells, 25

Stenosis
Balloon dilation complication during treatment of subglottic stenosis: background of FDA class 1 recall for 18 × 40-mm Acclarent Inspira AIR balloon dilation system, 364
Combined optical coherence tomography and endobronchial ultrasonography for laser-assisted treatment of postintubation laryngotracheal stenosis, 299
Congenital nasal pyriform aperture stenosis: conservative management, 601
Novel method for laryngotracheal reconstruction: combining single- and double-stage techniques, 445
Supraglottic stenosis: etiology and treatment of rare condition, 205
Utility of two-stage laryngotracheal reconstruction in management of subglottic stenosis in adults, 322

Stensen's duct
Rhabdomyosarcoma of Stensen's duct in children, 382

Stent
Rigid bronchoscopic management of complications related to endobronchial stents after lung transplantation, 183

Sternotomy
Radiologically predicting when sternotomy may be required in management of retrosternal goiters, 15

Strength
Tongue strength as predictor of functional outcomes and quality of life after tongue cancer surgery, 386

Subacute rhinitis
Subacute rhinitis in infants: gastroesophageal reflux must be considered, 588

Subglottic laryngeal closure
Subglottic laryngeal closure: unique modified method of laryngotracheal separation to prevent aspiration, 427

Subligamentous cordectomy
Voice outcomes from subligamentous cordectomy for early glottic cancer, 190

Suction
Tracheotomy tubes with suction above cuff reduce rate of ventilator-associated pneumonia in intensive care unit patients, 3

Sudden sensorineural hearing loss
Expression of autoantibodies in patients with sudden sensorineural hearing loss, 131

Supraglottic stenosis
Supraglottic stenosis: etiology and treatment of rare condition, 205

Surfactant protein A
Protective effects of exogenous surfactant protein A in allergic rhinitis: mouse model, 240

Surgical approach
Transnasal approach to orbital apex and cavernous sinus, 254

Swallowing
Causes of dysphagia in tertiary-care swallowing center, 335
Dynamic magnetic resonance imaging of pharynx during deglutition, 145
Stability of aspiration status in healthy adults, 289
Temporal measurements of deglutition in dynamic magnetic resonance imaging versus videofluoroscopy, 748

Syphilis
Oropharyngeal syphilis among patients infected with human immunodeficiency virus, 435

Systemic lupus erythematosus
Glottic bamboo nodules from systemic lupus erythematosus, 496

Thyroid gland
Factors influencing morbidity after surgical management of malignant thyroid disease, 398
Thyroid hormone replacement therapy, surveillance ultrasonography, and fine-needle aspiration after hemithyroidectomy, 450
Thyroid storm complicated by fulminant hepatic failure: case report and literature review, 679

Tinnitus
Association between tinnitus and sleep disorders in general Japanese population, 701

Tissue engineering
In vitro epithelial differentiation of human induced pluripo-

tent stem cells for vocal fold tissue engineering, 737

Titration
Optimal level of continuous positive airway pressure: auto-adjusting titration versus titration with predictive equation, 339

Tongue
Tongue strength as predictor of functional outcomes and quality of life after tongue cancer surgery, 386

Tonsillectomy
Efficacy of dexpanthenol for pediatric post-tonsillectomy pain and wound healing, 464
Standardization of reporting post-tonsillectomy bleeding, 277

Tracheotomy
Tracheotomy tubes with suction above cuff reduce rate of ventilator-associated pneumonia in intensive care unit patients, 3

Transoral surgery
Clinical outcomes of transoral robotic surgery for head and neck tumors, 73
Salvage transoral laser supraglottic laryngectomy after radiation failure: report of seven cases, 85

Triamcinolone
Hyoid bone syndrome: retrospective review of 84 patients treated with triamcinolone acetonide injections, 159

Transplant
Malignant transformation of respiratory papillomatosis in solid-organ transplant patient: case report and literature review, 457

Trophic factor
Differences in laryngeal neurotrophic factor gene expression after recurrent laryngeal nerve and vagus nerve injuries, 653

Tumor necrosis factor alpha
Etanercept prevents decrease of cochlear blood flow dose-dependently caused by tumor necrosis factor alpha, 468

Tympanic membrane
Otologic iontophoresis: no-papoose technique, 487

Tympanoplasty
Chronic otorrhea caused by myospherulosis in middle ear after tympanoplasty, 461

Unilateral vocal fold paralysis
Voice outcome following acute unilateral vocal fold paralysis, 197

Upper aerodigestive tract
Management of upper aerodigestive tract amyloidosis, 535

Upper esophageal sphincter
Botulinum toxin injection for treatment of upper esophageal sphincter dysfunction, 100
The upper esophageal sphincter is not round: pilot study evaluating novel, physiology-based approach to upper esophageal sphincter dilation, 217

Ventricular fold
Muscular anatomy of human ventricular folds, 561

Vertigo
Impairment of habituation of auditory brain stem response to migrainous vertigo, 308
Role of computerized dynamic posturography in evaluating sinugenic vertigo, 263

Vestibule
End-to-side interposed donor grafting as facial nerve reinforcement technique after vestibular schwannoma surgery, 520
Vestibular schwannoma in only hearing ear: role of cochlear implants, 91

Vocal cord paralysis
Magnetic resonance imaging findings in pediatric bilateral vocal fold dysfunction, 417
Prevalence of vocal cord paralysis in patients with incidentally discovered enlarged lymph nodes along expected course of recurrent laryngeal nerve, 229

Vocal fold injection
Single-operator flexible nasolaryngoscopy–guided transthyrohyoid vocal fold injections, 9

Voice
Acoustic correlate of vocal effort in spasmodic dysphonia, 169
Measurement of phonation threshold power in normal and disordered voice production, 555
New method for in-office secondary voice prosthesis insertion under local anesthesia by reverse puncture from esophageal lumen, 163
Subjective and objective parameters of adult female voice after cricotracheal resection and dilation, 707
Surgical management of airway dysfunction in Parkinson's disease compared with Parkinson-plus syndromes, 294
Voice outcome following acute unilateral vocal fold paralysis, 197
Voice outcomes for photoangiolytic KTP laser treatment of early glottic cancer, 151
Voice outcomes from subligamentous cordectomy for early glottic cancer, 190
Voice-related symptoms and their effects on quality of life, 404
Voice symptoms and voice-related quality of life in college students, 511

Web
Endoscopic keel placement to treat and prevent anterior glottic webs, 672
Management of postradiation esophageal web in setting of coexisting Zenker's diverticulum, 775

Zenker's diverticulum
Management of postradiation esophageal web in setting of coexisting Zenker's diverticulum, 775
Open staple diverticulectomy for large recurrent Zenker's diverticulum: still valid procedure, 729
Revision Zenker diverticulum: laser versus stapler outcomes following initial endoscopic failure, 247
